

## **DEPARTMENT OF INTERNATIONAL RELATIONS**

### **Mission Statement**

The Department supports and fosters the following actions:

- Implementing the strategy for internationalizing the university by means of initiating and developing contacts with universities all over the world;
- developing relationships of cooperation and partnership with similar institutions in Romania and abroad, on the basis of academic autonomy, equality and reciprocity;
- creating and promoting the image of the university, as a public institution with a reputation in education, science and culture;
- identifying potential partners and negotiating agreements within various international programs;
- initiating contacts with international universities and handling official correspondence, with the aim of increasing the number of cooperation agreements in the international academic environment;
- informing the students on the international programs in which the university is involved;
- experience exchange in various fields;
- organizing common scientific events;
- conducting scientific activities in cooperation with other parties;
- taking part in other common activities that promote the interest of education and scientific research;
- publishing studies, articles in specialized magazines, in a reciprocity regime;
- exchange of specialized publications;
- other forms of activity, as agreed by the parties;
- exchange of students, teaching staff and researchers;

The Bureau for Community Programs was established within DRIMU, in accordance with the Decision of the Senate Board based on the provisions of the Order of the Minister of Education and Research, no. 4284 of June 7<sup>th</sup>, 2005.

The Bureau for Community Programmes contributes to attaining the objectives set specifically for the Department of International Relations and Academic Image, as a consequence of the general objectives of the University referring to its international activity, by means of initiation, support and promotion of European and international integration, cooperation and participation in their achievement.

The University can join European and international associations or bodies for educational and scientific purposes.

The University accepts international students who wish to enroll in degree, Master or Ph.D. programs, in accordance with Romanian laws.
